Artist Bio & Image
Made in Clarkdale 2010

I am Billy Rowland, been in Clarkdale for 39 years, have been working in wood for most of that time on bigger stuff, started making small replicas of the farm machinery we had on the farm where I grew up plus many other things.

I have machinery to explain the process of farming from plowing to harvest and plus. I carve a ball and chain from one piece of wood with chain lengths connected and loose balls in cages. I also carve and build various other items like Dragons and dinosaurs, horses, oxen and carts and wagons, merry-go-rounds, carrouseles and about anything I can think of. I am retired from law enforcement here in Arizona.

MY NOTE:

As a new member to Made in Clarkdale, Billy Rowland has stepped up to volunteer in many aspects of making this year's show-from setting up to being a teacher and demonstrating. The members of Made in Clarkdale thank Billy for his contributions to the 2010 Art Show.
